

# World Pediatric Project

presents

16TH ANNUAL

WORLD PEDIATRIC PROJECT

# GOLF FOR THE KIDS

## Sponsorship Opportunities

**Norwood Hills Country Club**  
**Monday, October 3, 2022**

**9 OUT OF 10** children in low-resource countries lack access to pediatric medical and surgical care.

As a result, every day children suffer or die needlessly.

Our interconnected programs work together in Central America and the Caribbean to heal the children of today, while advancing pediatric healthcare for the children of tomorrow.

#### WE HEAL CHILDREN THROUGH DIRECT SPECIALTY AND SURGICAL CARE DELIVERY.

- Pediatric surgical and diagnostic teams travel to care for children in our partner countries.
- Children with a variety of complex medical conditions are brought to a WPP partner hospital, located either in the U.S. or a neighboring Caribbean/Central American country for specialized surgical care.

#### WE BUILD COMPLEX GLOBAL PEDIATRIC HEALTHCARE PARTNERSHIPS AND NETWORKS.

- The WPP network creates regional economies of scale for procurement and supply chain optimization.
- The WPP network connects resources across borders and between healthcare systems.
- The WPP network matches funding and resources opportunities with areas of interest and specific needs.

#### WE DEVELOP IN-COUNTRY HEALTH CARE RESOURCES IN 12 COUNTRIES.

- In-country training and education is provided to healthcare workers.
- WPP international teams partner with local healthcare professionals to provide hands-on involvement.
- Healthcare workers are connected to one another for improved communication and resource sharing.
- WPP assists in supply procurement and helps build infrastructure.

#### WPP MISSION

We heal children and advance pediatric healthcare in the world.

#### WPP VISION

Every community, in every country, will have the capacity to connect children to advanced pediatric health care.
